Video Discussion Questions

"Time Machine: The 1960s"

To answer before Reading *A Walk on the Moon*:

1. The narrator says that the 1960s were a time of "great change" (:18). Give two pieces of evidence from the video that support this statement.

2. The narrator explains that in the 1960s, many Americans watched television to keep track of what was going on in the world (3:02). Is this still true for Americans today? What are some other ways Americans now keep track of what's going on in the world?

3. Based on the information in the video, choose three words or phrases that you would use to describe life in the 1960s. Explain your answer.
