

# **“What We Saw”**

## **Why do we explore space?**

Respond to each statement by checking “agree” or “disagree.” Be prepared to justify your responses.

	<b>Agree</b>	<b>Disagree</b>
1. We are not alone in the universe.		
2. Curiosity can lead to both positive and negative outcomes.		
3. Space exploration can improve life on Earth.		
4. Humanity’s progress depends on exploring the unknown.		
5. The greatest risk is the risk not taken.		
6. There comes a time when you should give up on a goal.		
7. Humans should find other planets to live on.		
8. Eventually, scientists will run out of things to discover.		
9. People with curious minds are often not taken seriously.		
10. Searching for life on other planets is important.
